

AD SIZE:

This ad is sized at 4.25 X 4.25. When using the ".jpg", or "tiff" format to layout this ad will only be able to use the ad at this size or smaller (proportionately). The ".eps" can be sized up to down, proportionately. To Create an entirely different proportion, the native file will need to be used. You will need Freehand 9.0 to manipulate the native files. Any newspaper, or magazine publication would be able to do this.
